|        |                |      |          |                   |
|        |                |      |          |                   |
|        |                | I    | I        | I                 |

Thermometer ID is the team member's name or workstation name

## Thermometer Standards:

Thermometers must be with +/- 2" of 32" F (0" C)

Corrective Action:

"1" - Adusted thermometer and re-tested until spec temperature is reached.
